2012

## Yasuni Biosphere Reserve

The privileged location of the Yasuni between: the Andes, the Western Amazon Basin and the Equator make the Ecuador's most interesting wilderness for Mankind: the Yasuni Biosphere Reserve; home of the extraordinary biodiversity and a recently contacted Amazonian indigenous group known as the Huaorani; relatives of the Waoranis, the Tagaeri and Taromenane, still live in voluntary isolation deep in the reserve.

The Yasuni Biosphere Reserve also sits atop large reserves of crude oil, Ecuador's chief export, and contains an abundance of valuable timber species. This volatile combination has led to intense conflicts, and subsequently, increased international interest and concern.

In 1989, the area in and around the original limits of Yasuni National Park was designated as a Man and the Biosphere Reserve by UNESCO (United Nations Educational, Scientific and Cultural Organization). The Yasuni Biosphere Reserve. Now covers 16 820 km<sup>2</sup>, including a 5000 km<sup>2</sup> core area. According to UNESCO documents, this core area is centered on the Yasuni and Nushiño Rivers in the northeast section of the park. The rest of the reserve (a 7000 km<sup>2</sup> buffer zone and a 4820 km<sup>2</sup> transition zone) includes much of the remaining park area and the adjacent Waorani Ethnic Reserve.

The Yasuni Biosphere Reserve is the core of a small, unique area where South America's plant, amphibian, bird, and mammal species richness centers overlap. Furthermore, the reserve is located within the 'Core Amazon', an especially wet region to maintain wet, rainforest conditions as climate change-induced drought intensifies in the Eastern Amazon. Haffer (1969, 1997) postulated that the area in and around the Yasuni Biosphere Reserve was one of several Amazonian forest refugia during dry climatic periods over the past 65 million years, but this hypothesis has now largely been rejected (Mayle et al 2004, Maslin et al 2005).

## The Waorani People

The Waorani are Amerindians from the Amazonian Region of Ecuador (Napó, Orellana and Pastaza Provinces) who have marked differences from other ethnic groups from Ecuador. The entire Yasuni Biosphere Reserve region is ancestral Waorani territory, which

extends from the Napo River on the north and west, down to the Curaray River in the south and eastward into Peru. This vast territory, which stretches over 20 000 km<sup>2</sup>, underlies the current limits of Yasuni National Park and the Waorani Ethnic Reserve

Information on Waorani history and distribution prior to the twentieth century is scarce and speculative. The Waorani were traditionally a highly mobile, semi-nomadic population of hunter-gatherer horticulturalists. They lived in four warring and widely dispersed groups located on hilltops away from major rivers; the headwaters of the Tiputini River constituted the core of ancestral Waorani territory. Other indigenous groups, mainly the Zaporos, lived along the Tiputini and Curaray rivers in essence surrounding the Waorani. When the Zaporos were suddenly decimated by disease and violent displacement during the rubber boom that hit the region in the late 1800s, the Waorani were able to expand their territory northward to the Napo and southward to the Upper Curaray and Villano rivers. Waorani territory likely reached its greatest extent at the beginning of 20th century

At least two lines of evidence suggest that the Waorani were quite isolated, even from other indigenous groups in the area, for a long time:

1. - Their language, Wao Terero, is an isolated one without known congeners and with only two known cognates at the time of missionary contact in the late 1950s. Wao Terero is considered unique in linguistic construction, with no known similarities with Zaparoan phonology or structure.
2. - The genetic homogeneity of The Waorani also points to a lengthy isolation of their population.

During modern history, there were four major periods of early contact between the Waorani — which translates to ‘the people’ or ‘true human beings’ in Wao Terero— and outsiders encroaching on their territory:

1. - The rubber boom in the late 1800s/early 1900s,
2. - Early oil exploration in the 1940s,
3. - Missionary work starting in the 1950s, and
4. - The oil boom starting in the 1970s.

		Date							
038	Slate-colored Hawk	<i>Leucopternis schistacea</i>

198	White-throated Toucan	<i>Ramphastos tucanus</i>							
<b>WOODPECKERS &amp; PICULETS</b>		<b>PICIDAE</b>							
199	Lafresnaye's Piculet	<i>Picumnus lafresnayi</i>							
200	Spot-breasted Woodpecker	<i>Chrysoptilus punctigula</i>							
201	Yellow-throated Woodpecker	<i>Piculus flavigula</i>							
202	White-throated Woodpecker	<i>Piculus leucolaemus</i>							
203	Golden-green Woodpecker	<i>Piculus chrysochloros</i>							
204	Chestnut Woodpecker	<i>Celeus elegans</i>							
205	Scale-breasted Woodpecker	<i>Celeus grammicus</i>							
206	Cream-colored Woodpecker	<i>Celeus flavus</i>							
207	Ringed Woodpecker	<i>Celeus torquatus</i>							
208	Rufous-headed Woodpecker	<i>Celeus spectabilis</i>							
209	Lineated Woodpecker	<i>Dryocopus lineatus</i>							
210	Yellow-tufted Woodpecker	<i>Melanerpes cruentatus</i>							
211	Little Woodpecker	<i>Veniliornis passerinus</i>							
212	Red-stained Woodpecker	<i>Veniliornis affinis</i>							
213	Crimson-crested Woodpecker	<i>Campephilus melanoleucos</i>							
214	Red-necked Woodpecker	<i>Campephilus rubricollis</i>							
<b>OVENBIRDS</b>		<b>FURNARIIDAE</b>							
215	Dark-breasted Spinetail	<i>Synallaxis albigularis</i>							
216	Ruddy Spinetail	<i>Synallaxis rutilans</i>							
217	Speckled Spinetail	<i>Cranioleuca gutturata</i>							
218	Orange-fronted Plushcrown	<i>Metopothrix aurantiacus</i>							
219	Point-tailed Palmcreeper	<i>Berlepschia rikeri</i>							
220	Eastern Woodhaunter	<i>Hyloctistes subulatus</i>							
221	Chestnut-winged Hookbill	<i>Ancistrops strigilatus</i>							
222	Chestnut-winged Foliage-gleaner	<i>Philydor erythropterus</i>							
223	Cinnamon-rumped Foliage-gleaner	<i>Philydor pyrrhodes</i>							
224	Rufous-rumped Foliage-gleaner	<i>Philydor erythrocerus</i>							
225	Rufous-tailed Foliage-gleaner	<i>Philydor ruficaudatus</i>							
226	Olive-backed Foliage-gleaner	<i>Automolus infuscatus</i>							
227	Brown-rumped Foliage-gleaner	<i>Automolus melanopezus</i>							

		Date							
228	Buff-throated Foliage-gleaner	<i>Automolus ochrolaemus</i>							
229	Ruddy Foliage-gleaner	<i>Automolus rubiginosus</i>							
230	Chestnut-crowned Foliage-gleaner	<i>Automolus rufipileatus</i>							
231	Slender-billed Xenops	<i>Xenops tenuirostris</i>							
232	Plain Xenops	<i>Xenops minutus</i>							
233	Rufous-tailed Xenops	<i>Xenops milleri</i>							
234	Short-billed Leaftosser	<i>Sclerurus rufifigularis</i>							
235	Black-tailed Leaftosser	<i>Sclerurus caudacutus</i>							
<b>WOODCREEPERS</b>		<b>DENDROCOLAPTIDAE</b>							
236	Plain-brown Woodcreeper	<i>Dendrocincla fuliginosa</i>							
237	White-chinned Woodcreeper	<i>Dendrocincla merula</i>							
238	Long-tailed Woodcreeper	<i>Deconychura longicauda</i>							
239	Spot-throated Woodcreeper	<i>Deconychura stictolaema</i>							
240	Wedge-billed Woodcreeper	<i>Glyphorhynchus spirurus</i>							
241	Olivaceous Woodcreeper	<i>Sittasomus griseicapillus</i>							
242	Long-billed Woodcreeper	<i>Nasica longirostris</i>							
243	Cinnamon-throated Woodcreeper	<i>Dendrexetastes rufigula</i>							
244	Amazonian Barred-Woodcreeper	<i>Dendrocolaptes certhia</i>							
245	Black-banded Woodcreeper	<i>Dendrocolaptes picumnus</i>							
246	Strong-billed Woodcreeper	<i>Xiphocolaptes promeropirhynchus</i>							
247	Straight-billed Woodcreeper	<i>Xiphorhynchus picus</i>							
248	Striped Woodcreeper	<i>Xiphorhynchus obsoletus</i>							
249	Ocellated Woodcreeper	<i>Xiphorhynchus ocellatus</i>							
250	Spix's Woodcreeper	<i>Xiphorhynchus spixii</i>							
251	Buff-throated Woodcreeper	<i>Xiphorhynchus guttatus</i>							
252	Lineated Woodcreeper	<i>Lepidocolaptes albolineatus</i>							
253	Red-billed Scythebill	<i>Campylorhamphus trochilirostris</i>							
<b>TYPICAL ANTBRIDS</b>		<b>THAMNOPHILIDAE</b>							
254	Fasciated Antshrike	<i>Cymbilaimus lineatus</i>							
255	Undulated Antshrike	<i>Frederickena unduligera</i>							
256	Great Antshrike	<i>Taraba major</i>							
257	White-shouldered Antshrike	<i>Thamnophilus aethiops</i>							
258	Plain-winged Antshrike	<i>Thamnophilus schistaceus</i>							
259	Mouse-colored Antshrike	<i>Thamnophilus murinus</i>							
260	Pearly Antshrike	<i>Megastictus margaritatus</i>							
261	Spot-winged Antshrike	<i>Pygiptila stellaris</i>							
262	Dusky-throated Antshrike	<i>Thamnomanes ardesiacus</i>							
263	Cinereous Antshrike	<i>Thamnomanes caesius</i>							
264	Pygmy Antwren	<i>Myrmotherula brachyura</i>							
265	Moustached Antwren	<i>Myrmotherula ignota</i>							
266	Amazonian Streaked-Antwren	<i>Myrmotherula multostriata</i>							
267	Plain-throated Antwren	<i>Myrmotherula hauxwelli</i>							
268	Yasuni Antwren	<i>Myrmotherula fjeldsaai</i>							
269	Ornate Antwren	<i>Myrmotherula ornata</i>							

		Date							
270	Rufous-tailed Antwren	<i>Myrmotherula erythrura</i>							
271	White-flanked Antwren	<i>Myrmotherula axillaris</i>							
272	Long-winged Antwren	<i>Myrmotherula longipennis</i>							
273	Rio Suno Antwren	<i>Myrmotherula sunensis</i>
